

MAKING GAMES YOU **ALREADY** OWN

OUR MISSION

why are we called moddable games?

Publish **moddable** tabletop games that empower players,
artists and designers to become co-creators

In order to do this, we have chosen to embrace an **open-source** ethos.

OUR FIRST OPENSOURCE TABLETOP GAME

deterministic wartime strategy through abstract token management

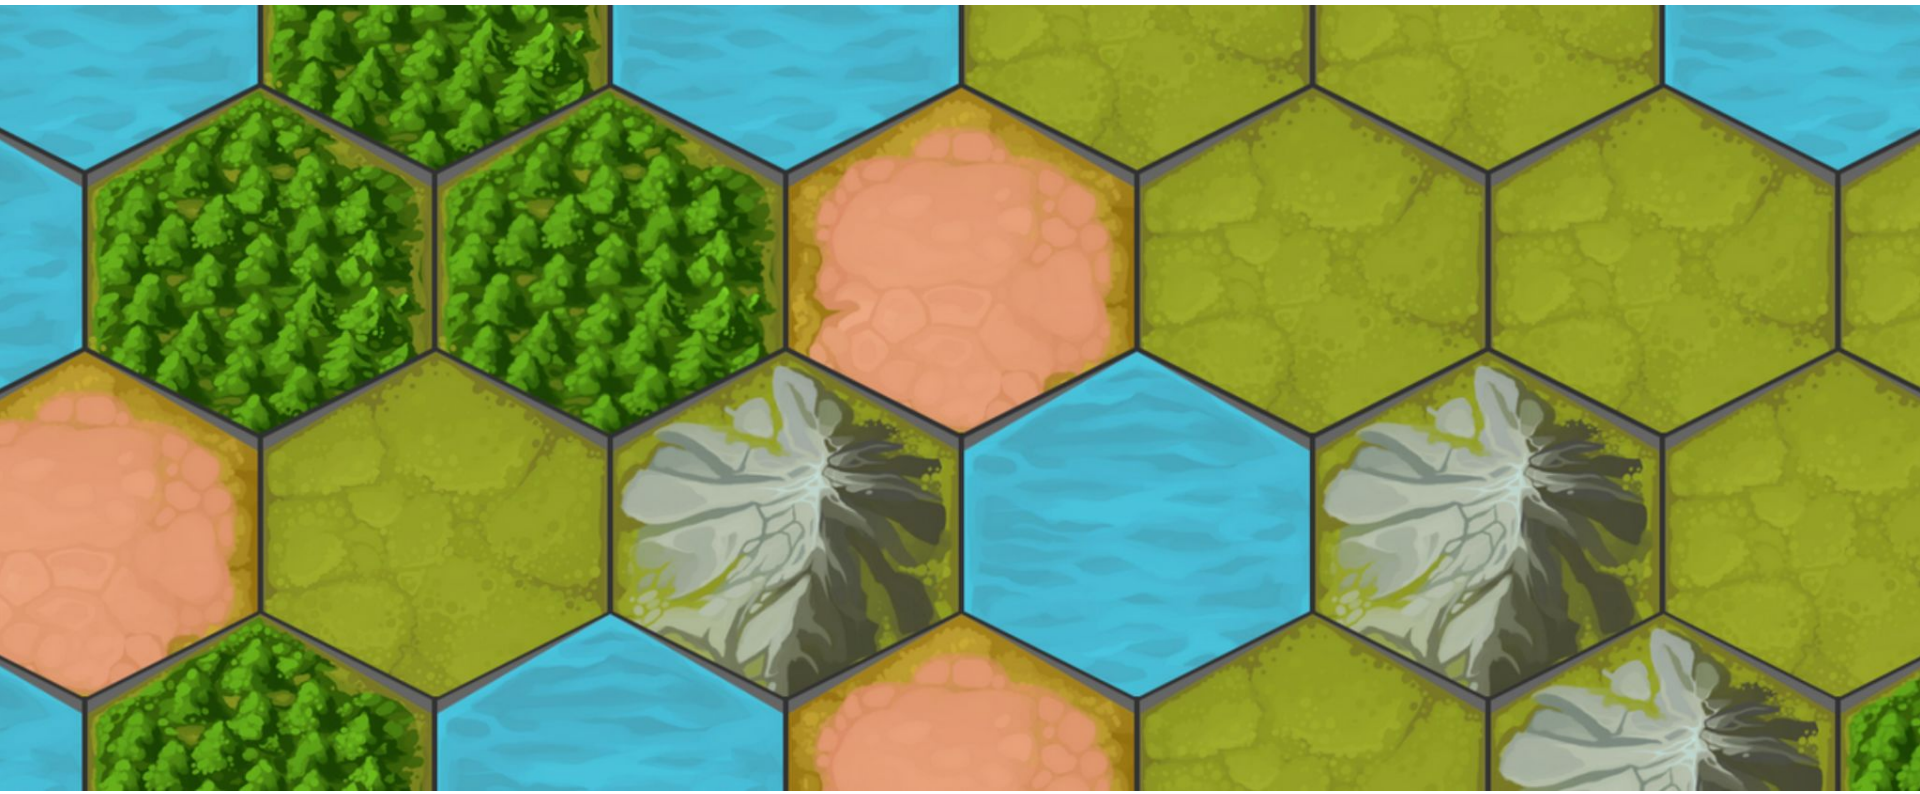

NUKES

- Combines the best elements from Chess, Checkers and Go
- Flexible system allows for limitless expansions and variants
- Modular board allowing for different setup every time
- Simple components (tokens and board)
- Can use Catan sets for the board
- Tokens can be anything
- **45 million copies owned already**
-- Just need to let people know!

currently in open alpha testing - <https://nukes.moddable.games>

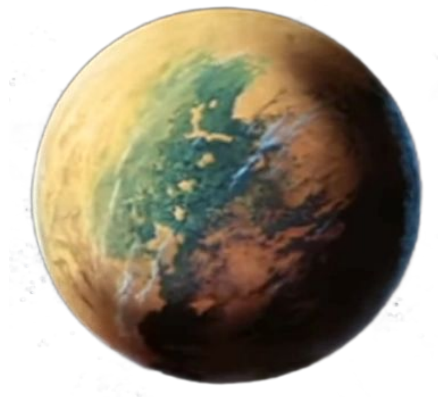

PLAY WITH FRIENDS OR INSTRUCTIVE BOTS

gathering data across multiple games to improve AI quality throughout all

OTHER GAMES IN OUR PIPELINE

also utilizing modular hex-based boards and our online engine

MONGO

Global conquest within the Flash Gordon universe combining elements from Risk and Catan in a public domain setting

ENDLESS SKIES

Exploration, trading and combat worker placement based upon the popular open source video game

OUR CURRENT PROGRESS

original games in active development

OUR VISION FOR THE FUTURE

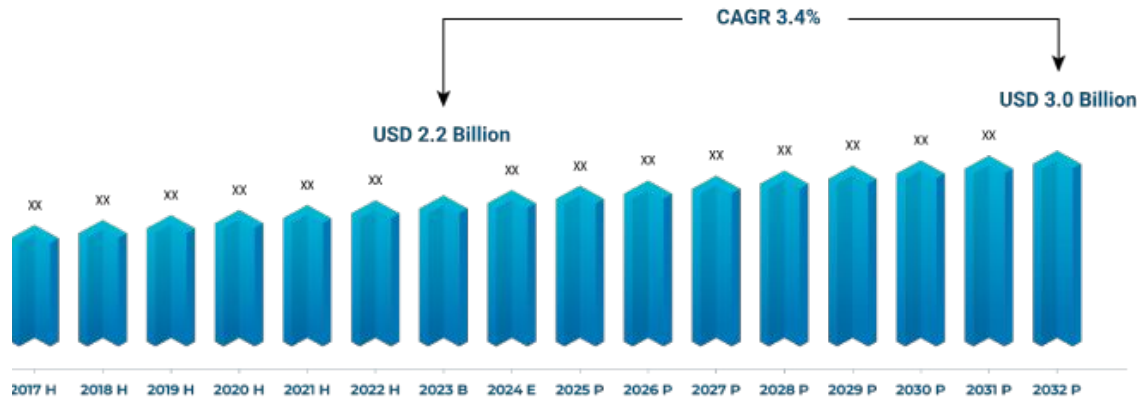

creating an online platform for playtesting and publishing games

Become the **leading** ecosystem for tabletop games, where physical and online play converge with community ownership

To do this, we are also building an **online engine** and **marketplace** for anyone to monetise their creations.

MARKET SIZE AND OPPORTUNITIES

why now - what's changed ?

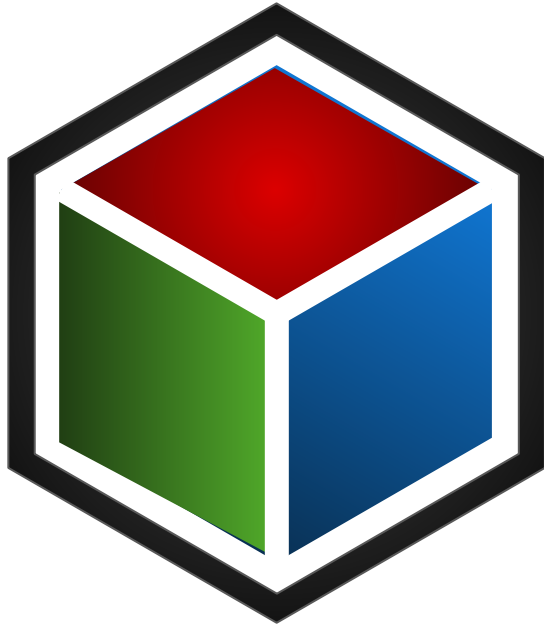

Global Market Size Forecast and Y-o-Y Growth 2023 to 2032 Infographic Data

- Over 45 million copies of Catan (usable as Nuke boards) sold
- Online chess markets expected to be worth over US\$3 billion by 2032
- Over 30 billion checker sets have been sold since launching (1000 BCE)
- Over 500 million people have played Monopoly and over 275 million sold

OPEN SOURCE BUSINESS MODELS

how can we make money without worrying about copycats ?

REQUIRES ORGANIC GROWTH / TIME

- **Print on demand** business model to begin with
- **Online store** for generic game components
- **Branded merchandise** and gaming tools
- Seek **licensing agreements** with other IPs
- Develop **original games** for specific brands

REQUIRES FUNDING / ADDITIONAL RESOURCES

- Create and collect data for **online games**
- Online tools for **self-publishing** games
- **Marketplace** for games & components

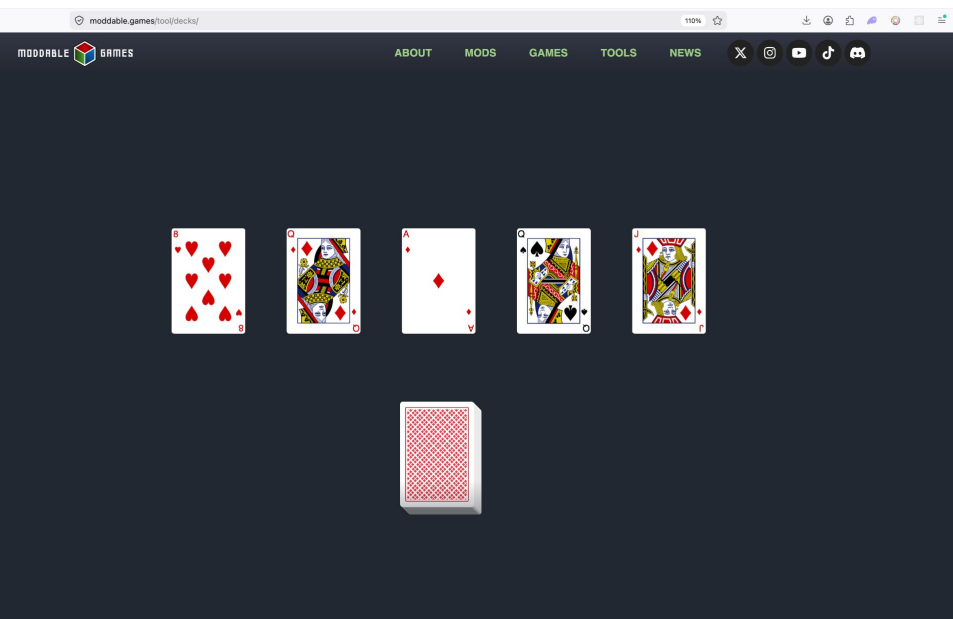

BARISTASAURUS

utilizing unpublished prototypes to target industries

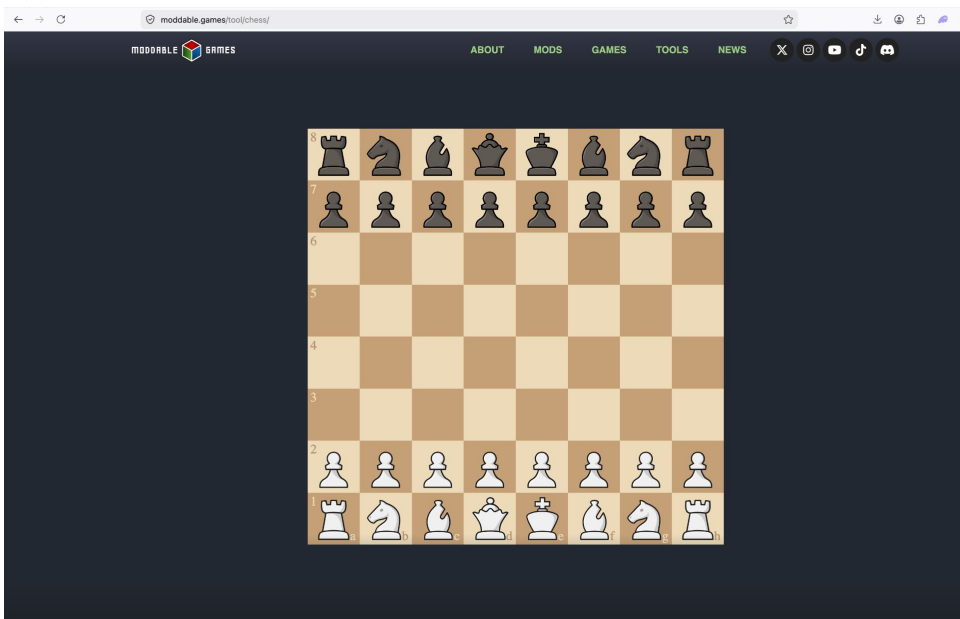

BEYOND HEXES

early progress demonstrating online support for other types of games

Cards - <https://moddable.games/tool/decks/>

Chess - <https://moddable.games/tool/chess/>

GOTO MARKET STRATEGY

create mods for some of the most popular games out there

3 mods in active development for existing games

(Monopoly, Talisman 4th Edition and Twilight Imperium 4th Edition)

CHESS - MOST MODDED GAME IN HISTORY ?

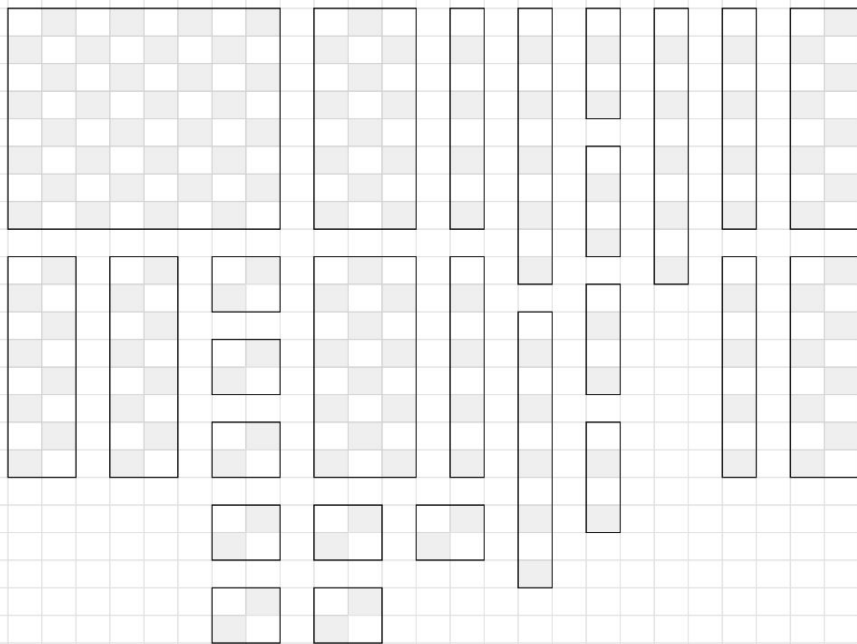

hundreds of variations supported by just a few fundamental sections

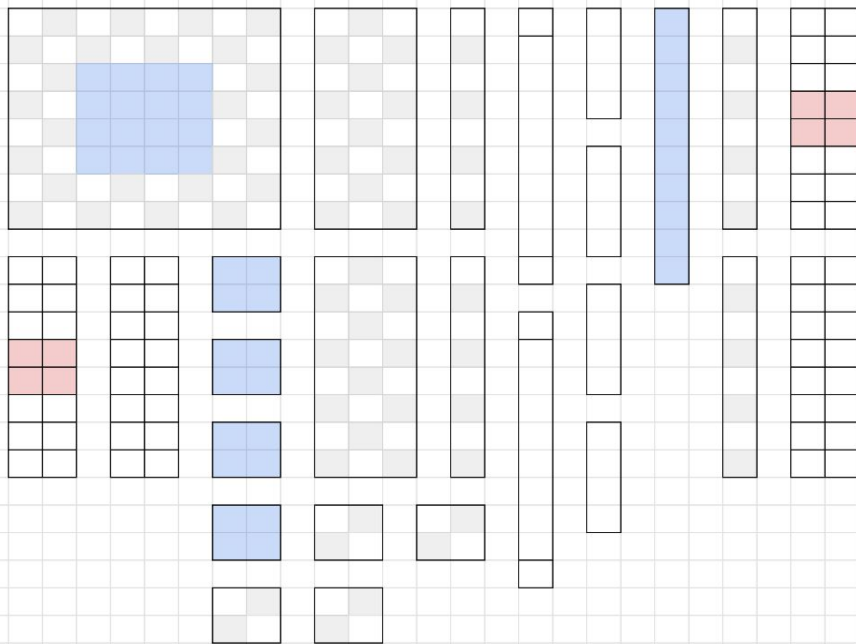

MODDABLE CHESS SUPPORTS THEM ALL

whilst also allowing us to introduce our own mod

FRONT OF BOARDS

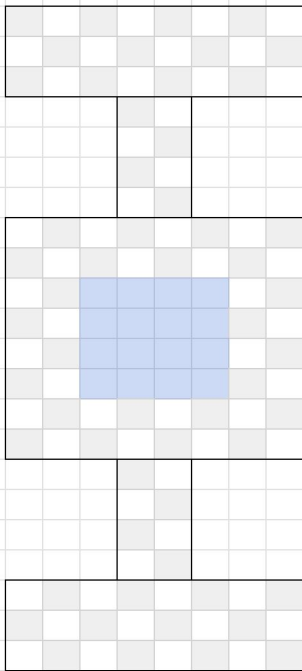

BACK OF BOARDS

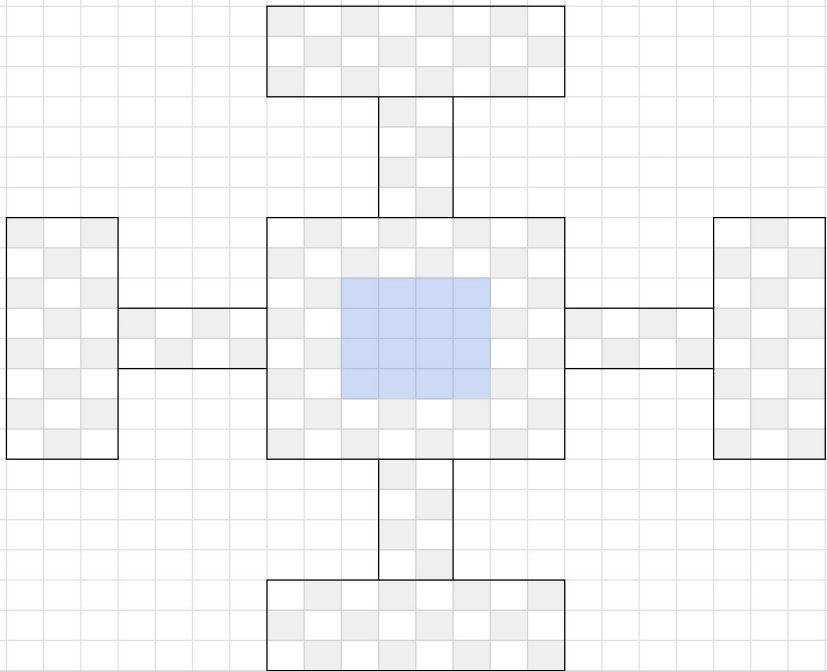

INTRODUCING DUNGEON CHESS

chess as an asymmetrical skirmish and dungeon crawler

TWO PLAYER EXAMPLE

FOUR PLAYER EXAMPLE

- Dungeon Chess **Battles**
2 or 4 player drafted skirmishes
 - Dungeon Chess **Adventures**
1 to 6 player legacy campaigns
-
- 4 distinct asymmetrical races
 - Magic wielders with spells
 - individual pieces with objects
 - Upgrade sets with proficiencies
 - Environmental obstacles
 - Unlimited objectives

MODDABLE CHESS AS THE CATALYST

suitable for crowdfunding, which could allow us to bootstrap

WHY NOW ?

- It's moddable, public domain, yet never been as popular
- No playable compendium of existing variations yet
- No new mods for a long time ...?

WHY CHESS ?

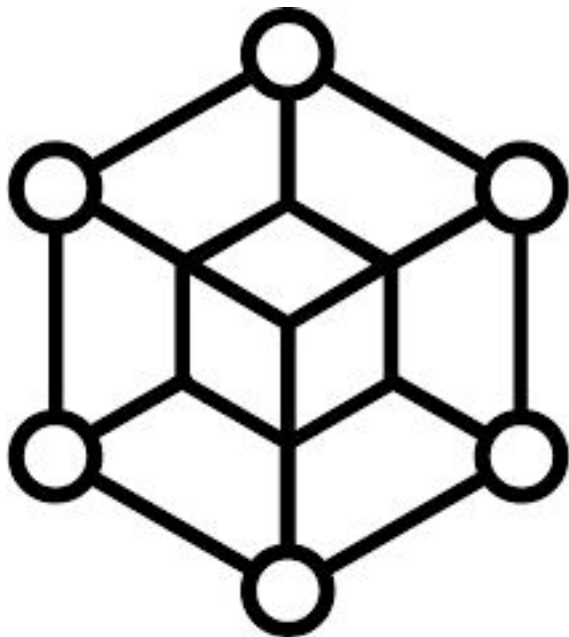

- Easy to target potential customers
- People intuitively know how to play

SUITABLE FOR STRETCH GOALS

- **LEVEL 01 - Regular 2 player Chess**
4 board sections with 100 total squares and 60 chess pieces
- **LEVEL 02 - Unlock support for 4 player Chess!**
15 board sections with 192 total squares and over 100 pieces
- **LEVEL 03 - Unlock XiangQi and 4 Board Variants!**
26 board sections with 256 total squares
- **LEVEL 04 - Unlock Dungeon Chess**
Unique races as player pieces, tokens, cards and more ...
- Extra races, upgraded boards, components, etc

WHAT IS OUR END GOAL ?

an ecosystem that enables creators to monetize their work

MODDABLE PRINTS ON DEMAND

- Moddable Chess Pieces & Other Minatures
- Build Your Own Hexes (using templates)

COMMUNITY CONTRIBUTIONS

- Artists selling themes for existing games
- Designers publishing their own expansions

SELF PUBLISHING

- Creators can validate ideas online first
- Monetize their communities via marketplace

THE PEOPLE TO MAKE THIS HAPPEN

what makes us special - why would we succeed where others have failed ?

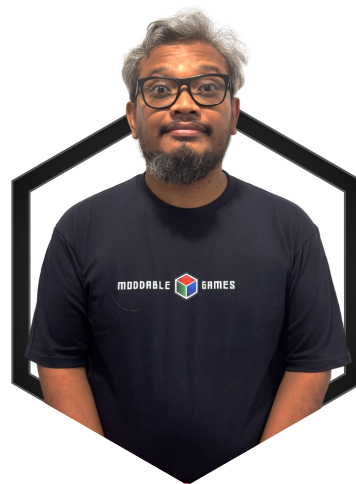

Mark Smalley

The Dungeon Master and Web Developer. Graduate of [500 startups](#) Silicon Valley

Kevin Chand

Chief Playtester and Social Engineer leading online growth, [marketing](#) & manufacturing

Akmal Fikri

Responsible for building our online engine & the [Malaysian](#) board game community

Iqbal Ridzuan

Lead Artist and our claim to fame - having worked on [BioHack](#) and [Mechamato](#)

WHAT WILL IT TAKE TO MAKE THIS HAPPEN ?

(this should eventually be replaced by facts, figures, timelines and sheets)

REQUIRED RESOURCES

- Full time developers and designers
- Funds for first print run of first game
- Capability to manufacture our own games

TIMING

- What becomes the next Chess dot com ?
- Can we use chess before someone else does ?

PHASES

- Phase 1 - Launch Moddable Games
- Phase 2 **or** 3 - **Bootstrap Mods & Nukes** Production ?
- Phase 3 **or** 2 - **Crowdfund Moddable Chess** or Mongo ?

NEXT STEPS

what exactly do we want or have to offer ?

INVESTMENT OPPORTUNITIES

- Purchase royalties to specific upcoming games
- Fund accelerated growth of company for equity
- Sponsor our crowdfunding campaign kick-off

PARTNERSHIPS

- Customised development of branded games
- Licensing agreements to use other brands
- Educational games for specific courses
